In the Legally Speaking column last May [6], we reported on a survey conducted at last year's ACM-sponsored Conference on Computer-Human Interaction in Austin, Tex. Among the issues about which the survey inquired was whether the respondents thought patent protection should be available for various aspects of computer programs. The 667 respondents overwhelmingly supported copyright protection for source and object code although they strongly opposed copyright or patent protection for &ldquo ...

LID 1: Intellectual property aspects of web publishing

Holger M. Kienle, Daniel German, Scott Tilley, Hausi A. Müller

October 2004 Proceedings of the 22nd annual international conference on Design of communication: The engineering of quality documentation

Publisher: ACM Press

Full text available: pdf(153.91 KB) Additional Information: full citation, abstract, references, index terms

This paper addresses how intellectual property affects the Web in general, and content

publishing on the Web in particular. Before its commercialization, the Web was perceived as being free and unregulated; this assumption is no longer true. Nowadays, content providers need to know which practices on the Web can result in potential legal problems. The vast majority of Web sites are developed by individual such as technical writers or graphic artists, and small organizations, which receive lim ...

The Sony safe harbor survived a tough challenge before the Supreme Court.

13 Academic papers: Where is intellectual property in information security education?

Kathleen M. Kaplan, John J. Kaplan

October 2004 Proceedings of the 1st annual conference on Information security curriculum development

Publisher: ACM Press

Full text available: pdf(57.71 KB) Additional Information: full citation, abstract, references, index terms

Information Security programs are on the rise in colleges and universities, but the curricula are lacking a vital aspect of the information security professional: Intellectual Property. Intellectual Property (IP) is needed in a field that merges current applications and technology, yet is not often taught. IP encompasses original thought, invention, and progress; the three traditional areas of IP are copyrights, trademarks, and patents. An information security professional cannot protect his or ...

14 Filtering and retrieval models: An empirical study on retrieval models for different

document genres: patents and newspaper articles

Makoto Iwayama, Atsushi Fujii, Noriko Kando, Yuzo Marukawa

July 2003 Proceedings of the 26th annual international ACM SIGIR conference on Research and development in informaion retrieval

Publisher: ACM Press

Full text available: pdf(419.99 KB)

Additional Information: full citation, abstract, references, citings, index terms

Reflecting the rapid growth in the utilization of large test collections for information retrieval since the 1990s, extensive comparative experiments have been performed to explore the effectiveness of various retrieval models. However, most collections were intended for retrieving newspaper articles and technical abstracts. In this paper, we describe the process of producing a test collection for patent retrieval, the NTCIR-3 Patent Retrieval Collection, which includes two years of Japanese pat ...

15 Patent frenzy!

Aaron Weiss

September 2004 netWorker, Volume 8 Issue 3

Publisher: ACM Press

Full text available: pdf(82.50 KB)

pa pdf(82.50 KB) html(27.02 KB)

Additional Information: full citation, abstract, index terms

The Ouroboros is a universal symbol. This iconic depiction of a serpent eating its own tail has been interpreted and re-interpreted by a diverse array of cultures, from Egypt, India, and Japan to the Aztecs and Native Americans. Had the ancient Egyptians filed for a patent with the U.S. Patent Office for the method of drawing said symbol, they'd probably have spent the next several centuries in court pursuing intellectual property infringement claims. Then again, many would argue that the U.S. P ...
